

## Meaning of Coloured Flags

**RED** - slow down as long as it is safe to do so, do not slam on the brakes as the guy behind you may not have seen the flag. Drop the bike down to 1<sup>st</sup> gear and proceed around the track back to the hot pit ensuring it is safe to do so. When possible, raise your hand to alert riders behind you to the fact that you are slowing down. If a rider requires help and it is safe for you to stop, please pull off the track and help.

**YELLOW** - use caution, there may be a hazard ahead.

**RED/YELLOW STRIPED** - indicates a potential traction hazard on the track. This could be oil, coolant, or whatever.

**BLACK** - will be pointed at the affected rider. This generally means there is a problem with the bike, your gear, or you have been flagged for an infraction of the rules. Please pull off the track next time around and see the person that has the flag.

**GREEN** - All is good and the track is open.

**CHECKERED** - Session or night is over. Proceed for one final lap and exit the track.
